

Whichever horses you use to travel make sure you come along to the

**METAL SEAGULLS**  
**Open Hangar 29/30 Sep,**  
**Sleep Airfield,**  
**Shropshire, SY4 3HE**

Metal Seagulls are pleased to invite you to their Open Hangar at Sleep Airfield, near

Shrewsbury, on the 29<sup>th</sup> and 30<sup>th</sup>

September 2018 (anytime between 09:00 and 17:00 each day). We will have a team over from ULPower to chat about

ULPower's exciting FADEC range of engines (97 to 200hp), and we will also be building a Zenair CH750 CRUZER wing during the weekend which you can help with and/or watch!

| Engine Model        | 260i | 260iS | 350i | 350iS | 390i  | 390iS | 520i  | 520iS |
|---------------------|------|-------|------|-------|-------|-------|-------|-------|
| Cylinders           | 4    | 4     | 4    | 4     | 6     | 6     | 6     | 6     |
| Hp@3300rpm          | 97   | 107   | 118  | 130   | 140   | 160   | 180   | 200   |
| Hp@2800rpm          | 85   | 93    | 116  | 123   | 130   | 145   | 170   | 185   |
| Installed weight kg | 72.3 | 72.3  | 78.4 | 78.4  | 101.0 | 101.0 | 108.0 | 108.0 |

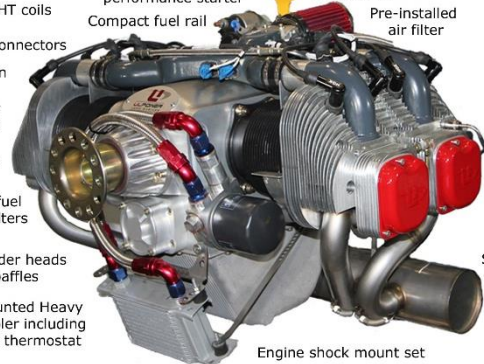

**Fuel Injected, FADEC, Direct Drive, air/oil cooled Aero Engine, supplied as a comprehensive standard package**

- AN- Fuel and oil connections
- Remote mount HT coils
- Silicone manifold connectors
- Dual ignition
- EGT/CHT for all cylinders
- Fuel injection
- High volume dual fuel pumps with dual filters
- Air/oil cooled cylinder heads with CNC cut baffles
- Engine mounted Heavy Duty oil cooler including integrated thermostat

- Easy access, high performance starter
- Compact fuel rail

Pre-installed lifting hook

Pre-installed air filter

Compact ECU with RS232 and CANBUS monitoring:  
 Fuel pressure  
 Throttle position  
 Oil temperature  
 Oil pressure  
 Air pressure  
 Airbox temp rpm

Stainless steel exhaust pre-installed

30A (4-cylinder) or 50A (6-cylinder) alternator

Engine shock mount set

+ EFIS cable, capacitor, FPCR, oil for initial start & first service, spare air/oil filters and more...

Whatever you drive, fly, ride or pedal you are welcome to come along and find out more about building and flying your own aircraft, our builder support centre, our range of services and products and just to enjoy some time with other aviators!

Refreshments (non-alcoholic beverages, nibbles and biscuits) will be available throughout the day in our hangar. Do remember that Sleep is also renowned for the excellent restaurant at the tower (very reasonable prices and great food!). We love building and flying, and look forward to sharing some time with you, 'chez nous'!
